5th Grade Arbor Day Poster Contest

In this activity, students will learn how a diversity of trees contributes to a healthy environment. Different tree species have different shapes, sizes, and environmental requirements that make each one suited to a different place in our community.

By creating their own community forest map, students will gain a better understanding of the functions of trees, and how tree diversity leads to wildlife diversity and a more attractive environment.

"PASS THE BAG"

10TH, 11TH, & 12TH GRADES

"Pass the Bag" is accomplished by passing garbage sacks down the rows of the bleachers at a sporting event. A student group gathers the bags at the end of the row and disposes of the trash. Look for your chance to "Pass the Bag" at the big game!

8th Grade Adopt-a-Spot

Calling all 8th Graders! Pick a spot on your campus and work together to keep it clean. Once a month check to make sure "your" spot is litter free. Think of ways to reduce litter on your campus. We can all do our part to keep Angelina County beautiful one "spot" at a time. Be sure to take pictures of your group cleaning their spot.

2011 Fall Sweep County Wide Cleanup AB/C is gearing up for the annual Fall Sweep Cleanup on November 19th. Volunteers will soon be out in full force all across the state of county picking up litter along our highways, streets and waterways. It's not too late to register yourself or a group!"
